Bluetooth USB dongle installation

⚠️ It is essential to have administrator rights on the computeur

1. Download the BLED112 driver on **www. eurosep.com,**
2. File will appear as a **.zip** file in your **Downloads folder**,
3. Right-click on the file and **Extract** it into the **Downloads folder,**
4. Plug in the BlueGiga BLE dongle. It may take a few re-insertions, or switching USB ports, for your PC to see it,
5. Click **Start** menu and right-click on **computer,**
6. Click **Manage,**
7. Click **Device Manager** in left pane,
8. In device manager window, expand categories and locate the dongle. If you have never installed the driver, the dongle will appear under "**Other**",
9. Right-click on the device name and select **Update Driver Software**,
10. Click **Browse my computer for driver software**,
11. Click **Browse** and navigate to the Downloads/BLED112…/wondrv folder and click **OK,**
12. Click "**Next**" button to install the driver.

Installation of the control panel software

⚠️ It is essential to have administrator rights on the computer.

1. Download the control software on **www. eurosep.com**,
2. File will appear as a **.exe** file in your **Downloads folder**,
3. Right click on the file and select **Open**,
4. Read and **accept** License Agreement. Click **Next**,
5. Click **next** to create desktop shortcut,
6. Click **Install** to begin the installation process,
7. Select **Finish** to complete the installation.

Adding a secure network

⚠️ BEFORE YOU CAN DETECT AND PILOT PROJECTORS, IT IS NECESSARY TO PERFORM THE FOLLOWING OPERATIONS:

1. Select the ''**Settings**'' Tab,
2. Select **Add** in **Secure Network Management**,
3. Enter the ''Secure groupe name'' : **eurosep** and the password : **eurosep1234**
4. Click **OK.**

⚠️ When commissioning projectors, it is the entire responsibility of the user to implement his personalized secure network (see ''Bluetooth Low Energy Projector Software Manual'', section 13.2 Secured Network Management).
